ABOUT ME

Hello I'm Osmancan, and I am a recent graduate with a degree in Software Engineering. Throughout my academic journey, I have focused on honing my skills in software development, particularly in mobile application development. Over the past three years, I have had the opportunity to gain valuable experience by working with three different companies in various capacities, including full-time, part-time, and freelance roles. Currently, I am working as a freelancer.

I have actively contributed to over 10 mobile application projects, either individually or as part of a team, using Flutter. I am proficient in most aspects of the Flutter app development process, and several of the apps I have developed are available on both the Apple Store and Google Play Store. In addition to my expertise in Flutter, I have 1.5 years of experience in iOS application development with Swift. During my internship, I worked closely with a team to develop a mobile application utilizing the Google Maps SDK.

In my spare time, I enjoy exploring and utilizing new technologies. Recently, I have been developing backend applications using Java Spring Boot to further enhance my skills. I am a team player who thrives in collaborative environments and consistently strives to complete assigned tasks efficiently. I am well-versed in Scrum and Agile methodologies, which I have frequently utilized in the companies I have worked for, ensuring a smooth and efficient software development process.

DIGITAL SKILLS

My Digital Skills
Flutter | Dart | Swift | SwiftUI | Spring (Spring Boot, Spring Security) | Javascript

WORK EXPERIENCE

[23/07/2024 – Current]

Flutter Developer

Craft Technology
City: İstanbul | **Country:** Türkiye

Currently, I am solely responsible for the mobile development of the Hayal Hanem Kutum Cepte mobile application project. In the development process, we follow Agile Scrum methodologies, including sprint planning, daily stand-up meetings, and regular retrospective sessions to ensure smooth progress. Using Flutter and related technologies, I focus on performance optimization, enhancing user experience (UX), and adding new features to the application. Additionally, I take a proactive role in cross-team communication to ensure projects are delivered on time and without delays. I manage the varying requirements of multiple projects with a flexible and solution-oriented approach.

Projects :

- Hayal Hanem Kutum Cepte

Achievements:

- UI Coding
- Firebase (Storage)
- Rest API
- Test via TestFlight
- MVVM Architecture
- Google Map
- Spring Boot
- Agile , Scrum Processing

[26/02/2024 – 14/06/2024]

iOS Developer Intern

Orion Innovation Turkey

City: Istanbul | **Country:** Türkiye

I completed my compulsory internship for 5 months as an iOS Developer Intern at Orion Innovation Turkey. During my internship, I took part in a mobile application project with my teammates that will allow people to filter food and beverage cafe-like locations near their location using GoogleMapSdk.

[01/10/2022 – 01/12/2024]

Flutter Developer

Mobsmile

City: London | **Country:** United Kingdom

I started working as a Freelance Flutter Developer at Mobsmile. So far, I have worked on the mobile parts of 4 different applications. I was solely responsible for developing the mobile sections of Studia Student, Studia Teacher, Adaylar Kim and Parea applications from start to finish. I also took part in adding new features to the Petros application. We used trello and slack for project management

Projects :

- [Studia Student](#)
- [Studia Teacher](#)
- [Petros](#)
- [Adaylar Kim](#)
- [Parea](#)

Achievements:

- UI Coding
- Firebase (Storage, Cloud Messaging , Admob)
- Rest API
- Publish on the App Store and Play Store
- Test via TestFlight
- MVVM Architecture
- Fastlane
- In App Purchase
- WebSocket

[01/04/2021 – 01/10/2022]

Mobile Application Developer

Zalisoft

City: Bursa | **Country:** Türkiye

I worked in this company as a mobile application developer. We were working with 3 people in the mobile application team. In this process, together with my teammates, we developed many mobile applications using Flutter technology.

Projects :

- Moms Seller - Marketplace
- Güven Tr - Real Estate
- Team App - Team Management
- Story Do - English Education
- [Yeniha](#) - Marketplace

Achivements:

- UI Coding
- Rest Api Entegrations
- Web Socket
- Clean Architecture
